SUBJECT: Proposed DCID on Compartmentation

1. As you can plainly see, Dick Kerr and I believe you should take the lead in putting together a package for the DCI which he may, in turn, elect to air at NFIB.

2. The idea is not to find solutions for all the problems which we face piecemeal, but to identify the issues and who is doing what about them.

3. I need not remind you that security is one of the DCI's favorite topics.

4. Can I help in any way?

[REDACTED]
Walter Elder
